« *Ackboo, French Dub's new blood !* »

Télérama **fff**

Ackboo has travelled all around the globe more than 5 years performing nearly **300 shows** between Paris, Mexico or Beijing. A **Live Dub mixing** project that can be compared to projects like Mad Professor and Kanka.

This second opus entitled **INVINCIBLE**, will be release on April 1st 2016 on Ackboo's label, Tanta Records. It is once again an eclectic and colored effort for the pleasure of all Reggae fans, but also electronic music addicts.

Listeners will travel among **14 songs** that were all composed and produced by Ackboo featuring 11 vocals specially picked: **Horace Andy, Linval Thompson, Green Cross, Solo Banton, Marcus Gad, Maicee, S'Kaya, Malone Rootikal and Dan I Locks.**

**Horace Andy** goes back to his Massive Attack era and raises his crystalline voice on an electro trip hop instrumental mixed with Dub characteristic style of Ackboo.

**Linval Thompson** sings, for the last song of the album, his legendary song on a dancing and powerful track built for Sound Systems.

**Brother Culture** shows its inimitable flow on a composition inspired by Mike Oldfield, striking. This is the title track of this album, the title chosen by Ackboo, inspired the lyrics of the whole album.

Especially on this album, Ackboo brings to light promising new talents including **Maïcee**, female talent showing a rare energy on Dying Inside wich is her first song to be distributed nationally!

With **INVINCIBLE**, Ackboo confirms his producer skills with a selection of singers (known or to be discovered) whose voice and personality perfectly match the spirit of the composition that has been proposed to them. Ackboo was also involved into the writing of the lyrics, all consistent with the project: he asked the singers to get inspiration from Invincible concept and wrote lyrics with a positive message.

*"I would like my music makes people want to unite and rise against injustice"*

This album has to be re discovered during live shows to enjoy it fully. The new live show is ready to tour the world!

In 2009, Ackboo released Bangladesh Dub vinyl, a real-dub stepper bomb! The song will be played on radios, including FM Life (UK), France Inter and the Mouv '(FR). Then Ackboo performs at **Rototom festival** in Spain and **Outlook** in Croatia. People loves the show because Ackboo is not a Dj: armed with his analog mixing console and his machines he re-mixes on stage his own productions. In 2013, he released his debut album **Turn Up The Amplifier** (Hammerbass records) which is welcomed as "The new blood of French Dub scene" (**Télérama** magazine). Since then, everything is accelerating: Ackboo plays at the 4 corners of the globe! In 2014, he collaborated with **Taiwan MC (Chinese Man)** and is invited for the second time by **Télérama Dub Festival** ... And the adventure continues: in 2015 he released "Mexico in Dub" EP and plays at **Dour Festival** ...

## Invincible : an artwork, a concept

We must unleash our imagination to let the artwork be meaningful. Key elements are combined: the owl is for the underground and the world of the night, it is also a symbol of wisdom and philosophy. The pyramid that sits on top of the illustration has no connection with the Illuminati. It is a symbol of spirituality that Ackboo diverts and appropriates himself without proselytizing for any religion. The child at the center of creation symbolizes the future ("youths are the future"), a Metis future, ready to defend itself and opening the field of all possibilities.
