“One Love Vibration” Mo’Kalamity meets Sly & Robbie

Reggae singer **Mo’Kalamity** is back with a new *made in Jamaica album*. The result of an unexpected and explosive musical meeting with legendary Jamaican musicians and producers **Sly & Robbie** !

MÓ KALAMITY

After more than three years of concerts in France and abroad with her **The Wizards** musicians, **Mo'Kalamity** flew away to Jamaica in spring 2017.

Accompanied by **Sly & Robbie**, legendary Jamaican musicians and producers, she recorded her new album at the *Anchor Studio*, in Kingston. Achieved in pure Live Jamaican tradition, these 9 new titles are the result of an artistic encounter with Sly & Robbie who expressed her music exactly as Mo expected.

On the same wave length as the singer, the several times *Grammy-nominated Jamaican* duo arranged and enhanced these new tracks with all the genius they expressed for decades.

Everything was recorded in *one shot live*, the old way !

Thus **Mo'Kalamity** comes back with a fourth album which is very personal since, like for all her previous albums, she wrote and composed most titles (two instruments were composed by Sly & Robbie).

“Mo'kalamity meets Sly & Robbie - One Love Vibration” will be released in January 2018.
