FLAMES UP!

DJ VADIM

Longevity is not a word you hear very much these days. We upscale and upgrade our devices on a daily basis so having a 3 year old phone for a lot of people is ancient. To contemplate a life before social media? wow thats really oldschool. Even more so for music where playlists are full of LIL this and that, teen sensations and models who now are DJ's since DJ'g is the new rockstar lifestyle. Videos on youtube can amass hundreds of millions of views for the most silly or akward stuff but there is another side. Perhaps the dark side or alternative world where musicians create music because they love it and not because of trends or social clicks . A alternative underground world of artists who will always create because its the very blood which flows through their veins. Voices of protest, voices of rebellion, Independant thought, free thinking people. This world may not be shiney and twinkley. It may not have hundreds of millions of views but its a world of artists that tour, where real fans buy merchandise and buy vinyls, downloads... and not one full of bots...

Welcome to the real world. Welcome to the world of the Dubcatcher

dj vadim returns with album no 15! Yes, that's 15 full albums not including remix albums ,ep's, singles, mixtapes or special editions... Insane even to contemplate the idea of a modern day artist with so much work who is still prevalent in a time where artists come and go in 2 tweets. Ya hot today and a nobody tomorrow. Flash a little flesh and you get 5 million followers. Well Vadim is not part of that hype machine. No cake throwing and not sweet 16 anymore but by the sounds of this album going harder than most people in their starting blocks of their career. He has somehow carved very much his own path jumping between labels and moulding genres together. this is a sole affair.A vision by a Independista . the rise of a one man army powerhouse. and what a journey it has been from the early days of

smoked out beats on Ninja Tune in the 90's to fully fledged digital dancehall rap of 2018. the dubcatcher 3 is born.

DJ vadim, aka daddy had returns to the dubcatcher kitchen to super hero fight more babylon baddies with his new army of cohorts. dancehall digital raggae sit along side hip hop rap and bass music. This isn't just a re hash of studio 1 or some sort of trap reggae or drill hybrid road rap. This is a futuristic re working from a revamped and relocated Vadim (London to Barcelona) . a re version. A 3.0, an alternate definition of what modern urban music can be from a producer who is seemingly arming his skill set with each album sonically. This time though, vadim goes to Jamaica bringing dancehall legends and pairing them with rap , roots reggae and soul. the guests read like an a2z of global talent. - mr lexx (major lazer) , Suku from dancehall legends Ward 21, BAY-C from TOK, Red Fox & studio 1 legend Earl 16. mix that with UK grime champion Killa P/ irah (killa army), Mr Babylon dead/ High Focus - jman. Hospitality records newest signing & first official vocalist to the label Inja, Britains got reggae winner 2016 - Claire Angel, one of the UKs reggae legends Macka B, UK drum n bass vocalist of the year and soundsystem legend MC Navigator, newest signee to VIP records Ras Demo aka Demolition man , UK roots reggae singer and former reggae roast host Ramon Judah, new york original raggamuffin jamalski, toddla t rum n bassman Serocee, Mr Raggasonic frontman frenchie - Big Red, californian Zumbi (Zion i), Los angeles native, Project Blowed & Lowend Theory host mr abstract rude.
