RELEASE-DATE : JUNE 2, 2017

WORLD / REGGAE

Acknowledged by an international press after the release of their first album "Sounds of life", nominated for the "Victoires du Reggae 2015", The high reeds are confirming their artistic personality in this year 2017.

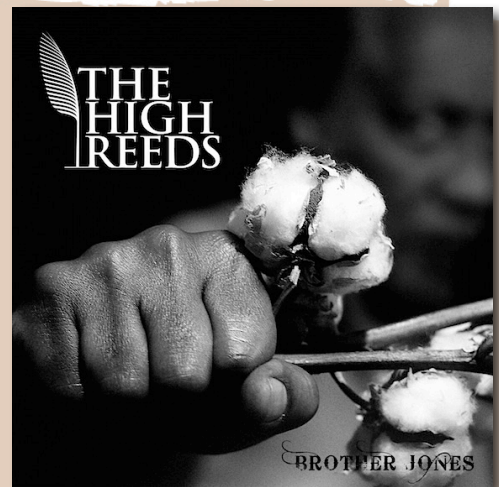

Nourished by their experiences, they give birth today to a new Ep, in which the eponymous *Brother Jones* single embodies, in the most beautiful way, the musical identity created by the quartet, the 'Blue Reggae', a Jamaican groove tinged with gospel, soul & blues. Christophe Rigaud's and Yaokan's vocal signatures unfold themselves in multi-cultural melodies, carried by conscious lyrics. **The High Reeds** are asserting, over these six new compositions, this unique, original and authentic alchemy.
