VINYL & DIGITAL

RELEASE-DATE : NOVEMBER, 5, 2021

REGGAE / HIP-HOP / WORLD

On March 13th 2020, **Marcus Gad**, fast rising talent singer from New Caledonia released his album « *Rhythm Of Serenity* » produced by Zion I Kings, and was about to start his biggest European tour ever. But few days later all Europe was on lockdown and all tours and promotions campaign has been canceled as the whole world was kind of knocked out by lockdown. Despite this, the album came as a musical remedy for his fans and made his community grow overseas. Stuck in France where his tour was supposed to start, 15000 miles from New Caledonia, Marcus Gad found in those international unprecedented events a source of new inspiration and creation. After almost 3 month of lockdown in a little village in the South of France he went to Paris where he met his old time friend « Tamal » to start working on « *Brave New World* » as a positive response to the situation.

They first met in 2009 when **Tamal** was a beatmaker and sound engineer at the famous Davout Studios in Paris. He recorded **Marcus Gad** first songs to be uploaded on Youtube in 2011, and later the famous debut album « *Chanting* », he follows **Marcus Gad & Tribe** on tour as their official live/front desk sound engineer. They started a closer collaboration as a duet in 2019 with the release of their first EP **Marcus Gad meets Tamal** « *Enter A Space* » including the song *River* that has reached already millions of streams on all platforms. Together they explore creation further than traditional roots reggae that has first made **Marcus Gad** success. So they kept moving forward with this collaboration when they ended up stuck together in Paris in this *Brave New World* materialised by the pandemic. They converted their emotions, fears, hopes, visions and feelings in a new musical journey. Still influenced by their first influences from reggae music, they went on a real musical exploration to bring something new, fresh, original associating powerful words and melodies to the unique sound of Tamal. This time they delivered more than a EP, and decided to release a full album.

BRAVE NEW WORLD

The listener experience can be an internal spiritual journey with songs like *Treasure* or *Look Around*, but also a musical adventure above any borders with *Tempo*. Songs like *Brave New World*, *From The Ashes* and *Between The Lines* relate the excess of our modern societies but also talk about hope and resilience of human being for a better world. Urban beats and modern sounds mixed with traditional instruments, the meeting of the old and the new is the overall esthetic of this album. In the same song you can hear a one drop reggae rhythm together with a 808 bass from trap music, a hip hop beat with a traditional moroccan loutar, all of that still tuned in 432hz, the frequency that prevent stress and helps us to relax, and that can heal our internal systems, like they did on all their previous releases.

After almost 2 years without playing any shows, **Marcus Gad** will be back on tour in 2022. Since his debut support tour for Horace Andy, Alborosie or Akae Beka, this time his name will be the one on top. Next European tour will soon be announced !

Aldous Huxley who wrote « Brave New World » in 1932 testified of his visions of a futur world, that seems to become our nowadays reality. **Marcus Gad & Tamal** share now to the world their own vision of this « Brave New World » and tomorrows challenges for humanity.

"All of humanity has entered a new world, our lifestyles, our perceptions, our inspirations are upset. The changes until we are subjects impose a renewal at all scales, from the largest international mechanisms to the interior of each individual. A global metamorphosis becomes creative in the infinitely small as well as in the infinitely large and is in turmoil" - Marcus Gad
