### 01 Give Me That Feeling

Oh, you never let me fall  
Without you here, I just can't carry it all  
And I know you speak the best of me, baby  
I'm so blessed to have you next to me  
Hmmm and I hate it when you're feeling down  
Yeah, 'cause I love having you around  
Look at this life we're building, baby, yeah yeah  
Ohhh, I wanna take you on a ride

If you're needing something from me  
Loving is the life I do  
I wanna make it easy to see  
Heaven just to be by you

See now time won't take a hold on us, hmmm  
No devil below you, and no god above  
See 'cause heaven is right here, baby, yeah  
When you pull me near, hmmm  
Hmmm and I hate it when you're feeling down  
Girl, 'cause I love having you around  
Look at this life we're building, baby  
I wanna take you on a ride

If you're needing something from me  
Heaven just to be by you  
I wanna make it easy to see  
Heaven just to be by you, woah oh  
If you're needing something from me  
Loving is the life I do  
I wanna make it easy to see  
Heaven just to be by you

### 03 Ocean Demon

I can reveal it, I can show  
The days of old, we were young, things were never slow  
We partied through the night, drinking beers, smoke weed  
It was a life, no regrets, we were living free

Life was a hoot, I could live rent free  
End on a knife like it used to be  
We took a dive with the ocean demons  
We took a ride, life was oh so beaming  
Living on the edge like an open book  
Ate everything, all the things we took  
Oh, to be free, oh no no no

See now moving & a groovin' is how I live  
I'ma taking everything, that's a way to live  
Living in a world of fantasy  
I make mistakes that's the way we grow  
Nobody's perfect, you can't fool a fool

Stand in the shoes of a man that's doing  
Run to the sun like a runner moves  
We got to move with the blows, let's do it  
I'm like a flag on a pole, can't move it  
Oh when I hear all the voices sing  
Just like the wings of a bird that brings  
All that I do, is do it for you

And now I'm rocking and I'm rolling, and I can't deny

I was that man, many woman, yes I was that guy  
Dancing and a singing 'til the sun woke up  
I could dance, making love, doing all above

Stand in the shoes of a man that's doing  
Run to the sun like a runner's moving  
We got to move with the blows, let's do it  
I'm like a flag on a pole, can't move  
Oh, when I hear all the voices sing  
Just like the wings of a bird that brings  
It made us re-realise we're leaving  
We never take, we was always giving  
Now that I know that I live my life  
Giving a shit for the ones who strive  
I got a pad, pen, paper, reading  
My past life I hit the ceiling  
Let me remind you for how I live  
Lived a good life that I want to give  
Give it to you, oh I know

Drums on the bass, dancing place  
Smoking all day 'til my eyes go red  
Give it up, give it up, hell no way  
You won't change the way I play  
Everyday's high when I want to say  
Losing my high, losing my way  
Can you feel it? No irie  
Mr Police, Mr Correct

## 04 Oh No (Pt. 2)

I don't know how she lives the life she brings  
Crazy living on a string  
No one can take her down  
Making trouble in her town  
No one answers with her loving relations  
That's the price for her freedom  
She's taking all the drugs she's free  
Living on the ecstasy

Oh no, she'll set your heart on fire  
Oh no, she's gonna play you like a choir

'Cause every man would want what every man can't have  
You have to break these chains, to make another day

If everything we do was left up all to you  
We'd never change our ways, to make the same mistake

He's watching everything, he sees  
His time, his opportunity  
No one can take her hand  
"I love you" she tells every man  
We'll she'll keep you just to hide all your worries  
Sleep with you and take all your money  
Don't go with her, just have a look  
Your heart and everything she took

Oh no, she'll set your heart on fire  
Oh no, she's gonna play you like a choir

'Cause every man would want what every man can't have  
You have to break these chains, to make another day  
If everything we do was left up all to you  
We'd never change our ways, to make the same mistake

You have to break these chains, to make another day  
If everything we do was left up all to you  
We'd never change our ways, to make the same mistake

Oh no, she'll set your heart on fire (yeah yeah)  
Oh no, she's gonna play you like a choir (yeah yeah)  
Oh no, she'll set your heart on fire (yeah)  
Oh no, she's gonna play you like a choir (yeah)

## 05 Follow

Plead, maybe it's time  
See, I can see where you're going  
So take me down a memory, 'cause baby it's passing  
I can take the best of you, so baby let's go

Leaving on my own  
Won't be here tomorrow  
Leave me no sorrow  
Bygones be bygones  
Be now not tomorrow  
Will you follow?  
Leaving on my own  
Won't be here tomorrow  
Leave me no sorrow

I, I got a few words to say  
We, we gotta turn the other way  
Take me on that ecstasy, and lead me to the sun, yeah  
We, we gonna need another day, yeah

Leaving on my own  
Won't be here tomorrow  
Leave me no sorrow

## 06 Crazy Dream

Why are you leaving me?  
'Cause everybody wants to be with me  
And why you deceiving me?  
'Cause everybody wants to be with me  
I hear the door, it's a knocking, DJ's songs are rocking  
They are only here for me  
I said why are you leaving me?  
They all want a piece of me  
I said hey!

I walk the earth just to set you free  
I fall apart on the floor for you  
I couldn't wait for the night, the timing is right

Now you got my attention  
Hey!  
I cannot tell if I'm living a dream  
There's something more in the air it seems  
I feel the magic is on  
The moon and the sun, let's get it all done tonight

Why are you leaving me?  
'Cause everybody wants to be with me  
Why you deceiving me?  
'Cause everybody wants to be with me  
I hear the door, it's a knocking, DJ's songs are rocking

I fall apart on the floor for you  
I couldn't wait for the night, the timing is right  
Now you got my attention

Now I know I got it all  
Take me home 'cause I want more  
Underneath the sheets tonight  
Can I be your love delight?  
Can I be your man? Have your heart take it all  
Your eyes when you stare, oh begging for more  
I can smell your coffee cream, living in this crazy dream

Why are you leaving me?  
'Cause everybody wants to be with me, oh yeah  
Why you deceiving me?  
'Cause everybody wants to be with me  
I hear the door, it's a knocking, DJ's songs are rocking  
They are only here for me  
I said why are you leaving me?  
Living in this crazy dream

Seven men come running in  
They would say that I have sinned (oh oh oh oh oh)  
There was nothing I could do (nothing I can do)  
Realised it wasn't true (oh oh oh oh oh)  
See me running from them all  
There's no help to take the fall, yeah  
Run and hide is what I'll do  
From that man that would pursue (oh oh oh oh oh)  
I am smart, I will not plead  
Seven men, the enemy (oh oh oh oh oh)  
Now I know what I must do  
To keep my life and tell my truth

Mr Rave Rider, we got you name, we got your name  
Mr Rave Rider, we know your name, we know your name  
Mr Rave Rider, we got you name, we got your name  
Mr Rave Rider, we know your name, we know your name

Oh they're chasing after me (hmm)  
Realise that I'm still free (realise)  
They were wrong, and I was right  
It's not me, it's not my fight (oh oh oh oh oh)  
Now they know that they were wrong (nothing I can do)  
Blame the man who wrote this song (oh oh oh oh oh)  
I'm so lucky to be free (nothing I can do)  
Seven men, the enemy  
Now I know they were wrong  
Blame the man who wrote this song  
I am so lucky to be free  
Seven men, my enemy

Mr Rave Rider, we got you name, we got your name  
Mr Rave Rider, we know your name, we know your name  
Mr Rave Rider, we got you name, we got your name  
Mr Rave Rider, we know your name, we know your name  
Mr Rave Rider  
Mr Rave Rider  
Mr Rave Rider

Running through the flames and my heart it's clear

Moving on the floor, let your body go  
Laughing in the air, always giving hope  
My nature is giving more  
I can feel the love walking through my door  
Running from the bad man  
He'll take you on and on  
Be careful who you're trusting  
They'll break you 'til they're gone  
Listen when I tell you  
That life can be your song  
You can get away from playing  
Because it lets you know

Signs

You got to know the signs  
You have to read the signs  
You got to know  
Living in a memory

I'm a young boy  
Gonna make my way  
Taking on my world I got things to say  
Survivor of these city streets  
Learning how to live from the people I meet  
I can hold my own with my shield and sword  
Working in a job 'til the wheels fall off  
Got money in my pocket and my belly's full  
Nothing in this world 'cause my body tells me signs

You got to know the signs  
You have to read the signs  
You got to know  
Living in a memory

Running from the bad man  
He'll take you on and on  
Be careful who you're trusting  
They'll break you 'til they're gone  
Gotta listen when I tell you  
That life can be your song  
You can get away from playing  
Because he'll let you know

I need to know if you believe  
And try, can you please for me? Oh yeah  
'Cause I'll keep you warm with me

## 10 Take It Away

You got me running round, running round  
Running out my head  
Living in your mystery  
There's something there to say

And now I can take hold of the future  
No one else will pay  
You're always when I need ya there  
To hear what I say

Take it away, somewhere to go  
Lead me astray where nobody knows

Hey!  
You hear me yelling out, running out  
Running out of ideas  
Come and tell me what you mean to me  
Make it loud and clear

Now I wanna know, I gotta know  
Tell me I can't hear, yeah  
Come and tell me what you mean to me  
Make it loud and clear

Take it away, somewhere to go  
Lead me astray where nobody knows

Pick up on the phone when the phone bell rings  
Tell me on the phone I can makes some plans  
Run into your home, something I will bring

No one else, baby, we must do  
Break into your home, taking off my shoes  
Holding me close, feel the warm embrace  
Look me in the eyes, I can see your face

Take it away, somewhere to go

## 11 Trying To Catch Me

I can't see the stars, the moon  
Take me back when I was new  
Reaching past the sky above oh I know my luck is up  
Wonder if a storm will fall

Trying to test me  
'Cause I know I'm out of here  
Jenny, will you come ride with me?  
Do you believe me?  
Can I take you by my side?  
We can go walking through the stars

My eyes are closed so I can feel  
Falling stars lay by my heels  
Makes me feel like I'm a boss  
Can I get that far for you  
Oh I know I'm riding high

Trying to test me  
'Cause I know I'm out of here  
Jenny, will you come ride with me?  
Do you believe me?  
Can I take you by my side?  
We can go walking through the stars

Trying to test me  
'Cause I know I'm out of here  
Jenny, will you come ride with me?  
Do you believe me?  
Can I take you by my side?
