Track by Track

01 Give Me That Feeling

This is a song that Miharo had the idea for a few years. It was in the back catalogue sitting there unfinished, and we decided to revisit it and work on it, and we're stoked to have it on this album. It shows our influence of Motown/Soul & R&B, and always felt like the perfect way to start the album.

02 Casanova

Our take on a LeVert track! A bit more up tempo and in the feels of the Keith Franks version. It's a track that has a real energy to it, we've started playing it live and it really just puts a smile on your face.

03 Ocean Demon

Personally one of my favorite tracks on this album. A tune that shows the bands love for roots reggae. All about surfing and playing up as a young fella with the boys.

04 Oh No (Pt. 2)

When we initially wrote this tune way back, we toyed around with the idea of doing it with this kind of feel – a bit of a 80s inspired feel. I'm stoked it has made the cut! Again, quite up tempo and has that funk/electronic element to it.

05 Follow

A tune that shows the producing/songwriting work of Brad and Josh Fountain who we did a bit of work with on this track. Harmonically and sonically it takes you on a journey.

06 Crazy Dream

Very much a vibe that gives off a ska/reggae feel. A fun track with a cool lyric and high energy!

07 Mr Rave Rider

When we wrote this track, we would watch old Country Western clips on YouTube to give us a theme. It throws back to that roots music style, but with that old classic Western story of a man who comes into town with the wrong agenda.

08 Signs

Again in that roots reggae style. Love Aras bass playing on this and one of my favourite vocals. I can hear the energy we were bringing into the studio that day in this recording, the vibes were on! Also features some horns from our wellington family, we've played a bunch of shows with them over the past few years, and it's great to have them on the record.

09 I Believe

This song initially scared me but in a good way! I know when I sing or record any ballad, it is possibly the most intimate vulnerable place for a singer. This song is all heart, warts and all. We have the beautiful voice of Aja with us on this track. A powerful tune and the moment needs to be right for listening.

10 Take It Away

A surf reggae/guitar heavy track that brings an element of rock onto the album. This was our first single of this album, and I'm stoked to show the rest of the body of work as the energy of this album is quite a lot higher than some of our previous albums.

11 Trying To Catch Me

A song that Brad Kora sings and wrote. It's cool to show the skills of our boys in the band. Brad is the drummer, lead song writer and producer. Yes he can sing and you want to hear him play the bass too! This tune takes you on a cool journey. Stoked to have a track on the album with a different voice!
